

RCM HEALTH CARE SERVICES AWARDED CERTIFICATION FROM THE JOINT COMMISSION

NEW YORK, NY August 11, 2009 – RCM Health Care Services (A Division of RCM Technologies) has achieved the Gold Seal of Approval™ for health care staffing services from The Joint Commission.

RCM underwent a scheduled and subsequent unannounced, on-site review of its compliance with national standards addressing how staffing firms determine the qualifications and competency of their staff, how they place their staff, and how they monitor staff's performance.

“Health care organizations that contract with RCM can look to this certification as an assurance that RCM demonstrates a commitment to providing and continuously improving quality services,” says Michele Sacco, M.S., Executive Director, Health Care Staffing Services Certification, Joint Commission.

The ongoing shortages of Allied Health Care Professionals, Nurses, and other Health Care Professionals have forced health care organizations to increasingly fill positions with temporary workers through contractual arrangements with staffing firms. The Joint Commission's certification program, offers an independent, comprehensive evaluation of a staffing firm's abilities to provide competent staffing services.

“This certification recognizes RCM Health Care Services' dedication to providing Health Care professionals that are qualified to provide safe, high-quality care to patients. We're proud to receive the Joint Commission's Gold Seal of Approval™ because we believe it makes us stand out among the elite and reinforces our commitment to quality and excellence.” says Michael Saks, Senior Vice President.

Founded in 1951, The Joint Commission seeks to continuously improve the safety and quality of care provided to the public through the provision of health care accreditation and related services that support performance improvement in health care organizations. An independent, not-for-profit organization, the Joint Commission is the nation's oldest and largest standards-setting and accrediting body in health care.
